## EDITORIAL

3

I don't know why fanzines must have an editorial, but since such is the case, MOHDZEE shall have one.

You are probably wondering for what purpose this insignificant little fanzine was ever published, and what usefull purpose it will serve. (no! shaid remarks pliz)

Let me enlighten you. The purpose is purely commercial, and it will serve we hope to cause the more glibble fans to part with some of their filthy lucre for a subscription to CENSORED which is resuming publication shortly. CENSORED will feature 2 and 3 colour silk screen covers as in the past; articles and stories by Canadian fen. Price will be 15¢ per copy or 3 for 40¢ payable now at the abode of ye editor Fred Hurter, 79 Hudson Ave., Town of Mount Royal, P.Q.

CENSORED will be backed by the MSFS to the greater glory of which the rest of this issue is wasted.

*Fred Hurter*

## THE MONTREAL SCIENCE FICTION SOCIETY

The MSFS was organized in November 1946 as the "McGill (University) Science Fiction Society", with a grand total of three charter members. Organized initially as a university campus club, it was able to use the facilities of the university as regards clubroom and notices in the student's daily newspaper. But from the start it was hoped that it might serve as a nucleus for the various fans presumably residing in the Montreal area. For this purpose it adopted the name of "Montreal Science Fiction Society". The two names were reconciled with great originality by means of the initials MSFS.

At first the limited membership and the lack of financial resources (money that is) and experienced members made any thought of putting out a fanzine truly FANTASTIC (have you read the latest issue? ) But as information regarding the requirements (chiefly cash) and production of a fanzine was obtained, the idea took

took root.(lots of dirt in our members made this very simple) And when on the first Anniversary of the club, the roster of members had reached the FANTASTIC (have you..er..oops said that already)number of 10 (to the vast astonishment of the founders)...including the publisher, editor, co-editor and staff of the defunct CENSORED, the dynamic (burp) Fred Hunter....the idea burst into full flower. (thanks to the same fertile minds already referred to). It was decided that the MSFS would sponsor the noteworthy ( or infamous) publication which had been started in the childhood of Montreal's premier (burp) fan.

With fan activity mushrooming, what with the revival of the Toronto group, the establishment of the ambitious... Hamilton group, the organisation of the CSFA and the revival of the CAEP as an affiliate of it...to say nothing of the Torcon.(Beak won't like that. He wants us to say something of the Torcon) it is only fitting that Montreal should take its place in Canadian Fandom (plug for Beak)

## THE TOPCON

In Montreal lives  
Camillien Houde,  
A firm enemy of  
Toronto the Good.

Since this is so  
We can't Understand  
How our Mayor Houde  
Actually could  
Let Toronto the Good  
Gain the upperhand

For what else is it  
But that;  
When the Stf. Convention  
Is held at  
Toronto The Good  
And not in the town  
Of Camillien Houde.

But let us be cheerful  
And hide our dismay  
And send in our dollars  
Without delay

To Ned McKeown  
At his abode  
At 1398  
Mount Pleasant Road.
